

Greg W. Filar, P.E. – Project Engineer

EDUCATION

**Bachelor of Science/1993/Civil Engineering
University of Maryland – College Park
AA/1989/Engineering/Catonsville Community College**

REGISTRATION

Maryland Registered Professional Engineer - No. 20762

Greg has over 25 years of experience within the Civil Engineering/Construction field. He began as a surveyor while attending night school. Prior to surveying he worked in the field of roadway construction and maintenance. Other avenues of experience include construction and bridge inspection. Greg's years of service within the engineering environment include drafting and engineering design. Upon receiving his degree and registration, Greg proceeded to take on responsibility of managing various engineering projects, which include highway design, hydrology and hydraulics, storm drain/stormwater management design, erosion and sediment control design, grading, and paving plans.
